PELVIC IMMOBILISATION

## HOW TO FIT A SAM II PELVIC BINDER

- Remove objects from patient's pockets
- Requires 2 people
- Slide Sam Pelvic Sling grey side up underneath patient at level of trochanters
- Place black strap through buckle & pull through completely
- Hold orange strap
- Pull black strap in the opposite direction until you hear & feel the buckle click
- Maintain tension & immediately press the black strap onto surface to secure

**ENSURE positioned over greater trochanters!**
